• Opened in 1915, Burke Rehabilitation Hospital in White Plains, NY is a 150-bed acute rehab hospital, entirely dedicated to rehabilitation medicine.

• Burke is accredited by the Joint Commission and the Commission on Accreditation of Rehabilitation Facilities.

• Burke offers specialized acute rehabilitation programs for patients who have experienced a serious injury, illness, or surgery.

• Burke’s mission to ensure that every patient makes the fullest possible recovery regardless of their ability to pay.

• Burke treats patients who have suffered a stroke, spinal cord injury, brain injury, amputation, joint replacement, complicated fracture, arthritis, cardiac and pulmonary disease, and neurological disorders.

• With approximately 3,500 inpatients annually, Burke admits patients from all areas of the region, including Westchester, New York City, Long Island, and Connecticut.

• Burke’s doctors, nurses and therapists provide state-of-the-art treatment, working as interdisciplinary teams, led by highly respected medical specialists, including neurologists, physiatrists and internists.

• Burke’s intensive therapy regimens provide a minimum of three hours of physical, occupational and speech therapy per day, up to six days a week.

• Burke also offers outpatient care, with facilities at the main hospital campus in White Plains, as well as 6 locations in Westchester County and the Bronx.

• Outpatient services include physical and occupational and speech therapy, cardiac rehab, an arthritis center, driver evaluation and home assessment program.
