

What is the Patient Portal?

Burke Patient Portal is a secure, private web portal that allows you to access your health information online. Updating your personal information, checking on your visit history, medications, and lab results is all available in one place.

Why use a patient portal?

[Burke Rehabilitation Hospital](#) offers this portal to help you find all the information you need about your health information.

- Review your visit history, insurance information, medications, reports and more.
- Review your physician and clinician documentation
- Update your health information, including allergies, medical conditions, medications you take and procedure history.

You can also use the Burke Patient Portal to keep track of your dependent's information and share information you choose securely with people you trust from a family member to another doctor. You also have the ability to archive your health record offline and save it in a convenient PDF file.

What do I need to get started?

Just a few items:

- Create a username
- Create a password
- Provide an e-mail address
- Answer two security questions
- Provide first and last name and date of birth (of the patient)
