Welcome to Burke

Burke Rehabilitation has been a leader in medical rehabilitation for more than one hundred years. Burke Rehabilitation is comprised of two divisions: Burke Rehabilitation Hospital & Burke Outpatient Division.

Opened in 1915, Burke Rehabilitation Hospital is accredited by the Joint Commission and the Commission on Accreditation of Rehabilitation Facilities. These two accrediting organizations are the gold standards for acute rehabilitation hospitals in the United States today.

Located in White Plains, New York, Burke is a 150-bed acute rehabilitation hospital, entirely dedicated to rehabilitation medicine. While convenient to Westchester County, New York City, Long Island and Connecticut, Burke attracts and welcomes patients from across the country and around the world. We provide inpatient and outpatient care for a broad range of neurological, musculoskeletal, cardiac and pulmonary disabilities caused by disease or injury.

Burke treats patients who have suffered a stroke, spinal cord injury, brain injury, amputation, complicated orthopaedic surgery or fracture, arthritis, cardiac and pulmonary disease, and neurological disorders. Patients are most frequently transferred to Burke from acute care hospitals once their condition is stable and they are able to participate in intense physical, occupational and speech therapy.

Burke Rehabilitation Outpatient Division was created to expand available therapies to patients who have been discharged from Burke and those from the community in need of quality compassionate rehabilitation care for a wide range of medical conditions. Steadily growing over the past several years, Burke continues to expand its outpatient facilities to address the needs for these services. Burke now operates one outpatient clinic on the main Burke campus in White Plains and five other community clinics throughout our service area.

PROTECTIVE FIELD

For greatest visual impact and design integrity, the logo is always surrounded by a protective field – or clear space – where no other image or type should appear. The box (shown as a dotted line) around the Burke logo indicates the protective field, which is the height of the letter “X” indicated above around the entire logo.

LOGO PROPORTIONS

The Burke logo should always be used in the correct proportion. Use the q key when scaling the logo artwork within any document.

MINIMUM SIZE

The Burke logo should never appear in a size smaller than 1.75” wide.

Each time the logo is used, it should adhere to the application guidelines specified in this manual.
This is the version of the logo with a tagline included. It should be used when first displayed or when the Burke logo is first displayed in a new medium. This is the most desired use of the logo.

DARK BACKGROUND APPLICATION
Logo may be reversed out of a colored background.

Consistent use of color creates a distinctive and proprietary look for Burke communications materials. This page includes several examples of 1-, 2- and 4-color logos.
Consistent use of the Burke logo is essential to protect the brand. The standards presented in this manual create a common platform for all communications materials and ensure a consistent look. Examples on this page depict improper ways to use the logo.
Specialty Usage

SHORTHAND LOGO

In time, the “B” in the Burke logo could be recognizable enough to the point it could be used by itself as more of a mark. This is not optimal and requires clearance from the Burke Marketing Department.

CATEGORICAL LOGO

Logo may appear completely in the Burke primary green, red, blue or gold when presented within its respective category, or in by itself in Burke green.

ONE-COLOR LOGO

Below is the only approved one-color logo.

The following are ways to alter the logo while maintaining its brand integrity. Each should be used sparingly and only once they have been approved for a project by Burke’s Marketing Department.
Similar to the shorthand logos, the initiative logos are color sensitive and should match programs they fit into with a line separating the colored icon and the program name underneath (1-2 lines preferably). Contact the marketing department before creating additional marks.

Door Signage

REQUIRED:

Should include 4 color logo with tagline or without.

As of January 2016, it is recommended that window and door signs include the verbiage: “A member of the Montefiore Health System, Inc.”

EXCEPTIONS:

When using one of the divisions of Burke, you still need the primary color logo.

For door signage please follow the guidelines above to maintain the integrity of the brand.
The phrase “A member of the Montefiore Health System, Inc.” should be added to printed and digital materials such as websites, advertising, brochures and other promotional materials. The phrase should be in Anivers Bold Italic and should appear smaller than the logo, as it is not officially part of the logo. For further clarification, contact the Marketing department.
Proper use of the Burke logo and Burke tagline help maintain and further promote the Burke brand. If you have any questions about the use of the Burke logo, tagline, colors, typefaces or anything else related to the brand, please contact Burke’s Marketing Department:
